

# Insulating Cover For Jumper Cable

## AHIS-CDT-2-06J

## AHIS-CDT-2-04J

Class  
**2**

- ① AC Proof Test Voltage  
- 20 kV/3 min
- ② AC Max Use Voltage  
- 17 kV

### Features

- This rubber cover is used as protective equipment to shield workers from accidental contact with live wires.
- It is primarily used for insulating and shielding down-leads in distribution network lines.
